

Abstract

Strategy of Fair Economy in Gyeonggi-Do in terms of Economic Democracy

Economic democracy reduces poverty and inequality and contributes to social integration. The purpose of this study is to define the economic democracy and to propose policies and directions for economic democracy in Gyeonggi-Do. In particular, this study defines the ‘Fair Economy’ as Gyeonggi-do’s economic democracy. This study suggests ‘A Fair Gyeonggi-Do to live together’ as a vision of the Fair Economy in Gyeonggi-Do. Furthermore, the study proposes three policy areas and 30 policy tasks to realize this vision. This study recommends the establishment of a private led ‘Fair Economy Committee’ to discuss agenda and strategic direction of Gyeonggi-Do’s economic democracy. In conclusion, it suggests the direction of Fair Economy as follows: first, to promote decentralization; second, to strengthen professionalism; third, to establish cooperative governance; fourth, to promote data-based Fair Economy policy; fifth, to strengthen the Fair Trade Support Center.
